

Latest news of how your mission dollars are being used at Community Development for All People (CD4AP), a National UMW mission site on the south side of Columbus. CD4AP has been assisting over 625 south end residents in securing their picture IDs, a very much needed item. Since during the pandemic this was administered virtually by the internet or phone, the City of Columbus has funded this endeavor to go city-wide with CD4AP handling the administration! Also, historically CD4AP has sponsored an All Night Gethsemane Prayer Vigil for the homeless in the community when temperatures are below 15-20 degrees. The folks are welcomed in, given a sleeping bag, asked to pray, and fall asleep praying. CD4AP has again hosted prayer vigils during the recent cold spell, averaging 20-25 folks a night!!

Linda Miller, CD4AP Board representative for West Ohio UMW
